

Topical Collection

Cryptography and Security in IoT and Sensor Networks

Message from the Collection Editors

The rapid advancement of the Internet of Things (IoT) and sensor networks is improving our quality of life and leading to a leap into a new world. It is of paramount importance to address various security threats and attacks for the successful establishment of such technologies. Accordingly, focusing on the aspect of cryptography and security for IoT and sensor networks, it is necessary to provide solid as well as evident solutions as countermeasures. This Topical Collection aims to bring together current state-of-the-art research and future directions for cryptography and security in the IoT and sensor networks. For such a goal, we cordially invite researchers and engineers from both academia and industry to submit their original and novel work for inclusion in this Topical Collection. Tutorial or survey papers are also welcome. For detailed information, please visit [here](#).

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di
Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
