Call for Papers

Kookmin University, Seoul, South Korea
July 8~10, 2026

The 2nd IFIP WG 8.4 International Symposium on
E-Business Information Systems Evolution

EBISION 2026

OVERVIEW

We are living in an era of **digital great transformation**, where revolutionary advances in technology are reshaping every dimension of E-Business. Artificial intelligence, quantum computing, 6G mobile communications, cloud ecosystems, robotics, blockchain, and Web 3.0 are no longer distant visions but emerging realities that are redefining how businesses and societies operate. These developments demand a **paradigm shift in E-Business Information Systems (EBIS)**—a shift that must be approached through truly multidisciplinary perspectives, spanning not only technology and organizations but also society, culture, consumers, and global infrastructures.

As the **flagship event of IFIP Working Group 8.4, EBISION 2026 provides an international forum** to explore this paradigm shift, share insights across disciplines, and envision the next stage of EBIS evolution. The symposium encourages contributions that highlight both theoretical advancements and **practical success stories**, demonstrating how innovations can be effectively translated into sustainable impact across industries, economies, and societies.

TOPICS

Submissions are invited on (but not limited to) the following:
- Artificial Intelligence and Data-Driven Business Innovation
- Quantum-Safe and Powered EBIS
- 6G Networks and Ultra-Connected E-Business Ecosystems
- Cloud-Native Platforms and Multi-Cloud Resilience
- Blockchain, Decentralized Finance, and Web 3.0 Economies
- Robotics, Automation, and Smart Service Infrastructures
- Human-Centered and Consumer-Oriented EBIS Design
- Digital Culture and Global Trust Frameworks
- Case Studies and Success Stories in Diverse Industries
- Cyber-Physical Integration for EBIS
- Sustainability and Green E-Business Systems
- E-Business Governance, Policy, and Regulation
- Resilient and Adaptive EBIS Architectures
- Cybersecurity and Digital Trust in EBIS
- Future Research Paradigms for EBIS Evolution

SUBMISSION GUIDELINES

- Submit original papers via EasyChair system: **TBD**
- **Papers must not substantially overlap** with published work or submissions under review elsewhere
- **Anonymous submissions required** - no author names, affiliations, acknowledgments, or self-references
- **PDF format using EasyChair templates** (LaTeX or Word available at provided links)
- **5-20 pages** in EasyChair style, excluding bibliography and appendices
- Accepted papers **require author registration** by deadline and symposium presentation

POST-CONFERENCE PUBLICATIONS

- The proceedings of EBISION 2026 will be made available to **all registered attendees**.
- During the symposium, **all accepted papers** will appear in the preliminary online proceedings (non-official publication) for participant access.
- A selected set of presented papers will be invited for further revision and expansion, and subsequently considered for publication in the **Springer IFIP Advances in Information and Communication Technology** (AICT) series (Scopus/EI, pending).
- Remaining papers will also be invited to submit extended and revised versions for possible publication in **SCIE- or Scopus-indexed journals** (pending).

SYMPOSIUM ORGANIZATION

General Chair
- Ilsun You (Kookmin University, South Korea)

Program Committee
- **TBD**

Main Organizers
- Kunlin Tsai (Tunghai University, Taiwan)
- Jiyoon Kim (Gyeongsang National University, South Korea)
- Gaurav Choudhary (Technical University of Denmark, Denmark)
